

The Chemical Company

Classified for "RESTRICTED USE" in New York State under 6NYCRR Part 326

ACCEPTED FOR REGISTRATION

Sept. 16, 2009

New York State Department of Environmental Conservation Division of Solid & Hazardous Materials Pesticide Product Registration

Supplemental Label

TERMIDOR® NY

For sale to, use and storage only by individuals/firms licensed or registered by the state to apply general pest control products.

Directions for use to control listed pests on outside surfaces and along foundation perimeter of listed structures

Active Ingredient:

fipronil: 5-amino-1-(2,6-dichloro-4-(trifluoromethyl) phenyl)-4-((1,R,S)-(trifluoromethyl)sulfinyl)-1-H-pyrazole-3-carbonitrile9.1%

Other Ingredients:90.9%

Total: 100.0%

One gallon of Termidor® NY contains 0.8 lb of fipronil.

EPA Reg. No. 7969-210

Refer to the Termidor NY main label, EPA Reg. No. 7969-210, for complete Directions For Use and all applicable restrictions and precautions. User must have the full Termidor NY container label, this supplemental label and any other label required for the intended use in possession at the time of pesticide application.

Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. DO NOT apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

Directions For Use To Control Listed Pests On Outside Surfaces and Along Foundation Perimeter of Listed Structures

Listed structures are residential, institutional, commercial and industrial buildings and utility enclosures.

Use Restrictions

- Only protected applicators wearing personal protective equipment as required by this product label may be in the area during application.
DO NOT treat within a distance of one foot out from the drip line of edible plants.

- DO NOT contaminate public and private water supplies.
DO NOT contaminate water, food or feed. Cover or remove all exposed food, feed and drinking water.
DO NOT apply to wasp or hornet nests if they are not attached to the structure exterior or inside wall voids.
DO NOT make treatments while precipitation is occurring.
DO NOT allow residents, children, other persons or pets into the immediate area during application. DO NOT allow residents, children, other persons or pets into treated area until sprays have dried. After application, the applicator is required to check for leaks resulting in deposition of treatment dilution in locations other than those prescribed on this label. When found, this material must be cleaned up prior to leaving the application site. DO NOT allow people or pets to contact contaminated areas or to reoccupy contaminated areas of the structure until the clean up is completed.
DO NOT spray air conditioning units or air intake vents.
DO NOT use indoors except for applications into wall voids.
DO NOT exceed the maximum of two applications per year.
DO NOT apply to playground equipment and pet quarters.

- **DO NOT** allow applications to runoff or drip from treated surface.
- **DO NOT** apply to boat houses, including their piers or pilings.
- **DO NOT** apply within 5 feet of wells or cisterns.
- **DO NOT** apply to French drains or other permeable drainage.
- Doors and windows adjacent to application site must be closed during surface application.
- **DO NOT** apply within 15 feet of bodies of fresh water: lakes, reservoirs, rivers, permanent streams, marshes, natural ponds and commercial fish ponds. A 15-foot buffer of uniform groundcover must exist between application zone and bodies of fresh water (uniform ground cover is defined as land which supports vegetation of greater than 2 inches in height throughout. **DO NOT** apply within 60 feet of estuarine bodies of water. Estuarine water bodies are brackish, tidal water bodies such as bays, mouths of rivers, salt marshes and lagoons.

Use **Termidor® NY** to kill and provide residual control of the following pests:
ants (acrobat, Argentine, big-headed, carpenter, crazy, odorous, pavement, pharaoh, thief)

Use **Termidor NY** to kill the following pests:
beetles (Asian lady, darkling);
bugs (box-elder, pill);
centipedes;
cockroaches (Australian, Oriental, smokey brown);
crickets, house;
earwigs, European;
flies, cluster;
millipedes;
silverfish;
spiders (black widow, brown recluse, cellar, hobo);
ticks, brown dog;
wasps, paper*;
yellow jackets

* **Termidor NY** is not a knockdown agent.

Mixing Instructions

To prepare 1 gallon of a 0.06% spray dilution, add 0.8 fl oz of **Termidor NY** to the treatment tank already 1/4 to 1/3 filled with water. Filling hose must be equipped with an anti-backflow device or water flow must include an air gap to protect against back siphoning. While agitating, add more water to make 1 gallon of finished dilution.

To make treatment, continue agitation and apply a coarse spray using a low-pressure sprayer.

Applications To Outside Surfaces of Listed Structures and Into Wall Voids

Apply 0.06% **Termidor NY** finished dilution where listed pests enter the structure, where they trail or crawl and hide or where their nests are found. Treat using a

low-pressure coarse banded surface spray up to 18 inches in width around doors, windows, vents, pipes or any other exterior openings and/or with a crack and crevice injection tip into foundation cracks or drilled holes where listed pests could enter the structure. Be especially careful to treat the joint where exterior siding (wood, vinyl, aluminum or any similar material) meets the cement, block or brick foundation. Treat areas where any wires (electrical, telephone or cable) enter the house. **Termidor NY** foam applications may be made to wall voids to kill/control listed pests. Refer to the **Foam Applications** section of this label for specific foam mixing and application instructions.

Foam Mixing Instructions and Application

Prepare the finished dilution of **Termidor NY** and mix it with manufacturer's recommended volume of foaming agent in foaming equipment. Apply a sufficient volume of **Termidor NY** foam formulation to provide a continuous treated zone at the recommended rate for specific applications (these various rates are provided in the text of this label). If sufficient foam volume cannot be applied to achieve the recommended rate of **Termidor NY**, apply additional finished dilution of **Termidor NY** as liquid to assure proper treatment volume and concentration in the treated area.

Mixing Table for Termidor NY Foam

Termidor NY Use Dilution	Gallons of Finished Dilution	Foam Expansion Ratio**	Finished Foam (gallons)
0.06% ai*	1.0	25:1	25
	1.66	15:1	
	2.5	10:1	
	5.0	5:1	

* Percentage weight of active ingredient to weight of spray dilution.

Add the manufacturer's recommended quantity of foam agent to the **Termidor NY dilution.

Applications To Perimeter of Listed Structures

Apply 0.06% **Termidor NY** finished dilution as a low-pressure coarse general surface spray along the foundation exterior perimeter to an area one foot up and one foot out from where the ground meets the foundation. Apply 2 quarts of 0.06% **Termidor NY** finished spray per 160 linear feet. (This rate is approximately 1.5 gallons finished spray per 1000 square feet.) If nests are found on the ground within one foot of the foundation, treatment of **Termidor NY** can be made to these nests.

It is recommended to remove or prune away shrubbery, bushes, and tree branches touching the structure. Vegetation touching the structure may offer a route of entry for ants into the structure. This may allow ants to inhabit the structure without coming in contact with the treatment.

Conditions of Sale and Warranty

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER'S EXCLUSIVE REMEDY AND BASF'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
