

BIO-GEL[®]

Biologically enhanced cleaning formula to naturally remove organic debris

- Synergized, Chlorine and Ammonia resistant bacterial blend to effectively remove organic build-ups
- Thickened product specifically designed with excellent clinging properties
- Ready-to-use with extra-long shelf life
- Bio-degradable, non-toxic, non-pathogenic, non-caustic
- Non-corrosive, salmonella-free and pathogen-free
- Reduces foul odors, improves drain flow and is safe for all drain lines
- Fresh Citrus Scent

INSTRUCTIONS FOR USE

Refer to full label for additional directions for use.

Shake well before using

For use in and around Commercial, Industrial, Medical and Residential buildings such as: Garages, schools, meat packing facilities, food processing facilities, nursing homes, mortuaries, offices, supermarkets, restaurants, convenience stores, apartment complexes, transportation terminals, boat/ships, and many more facilities. Can be used in and around food and non-food areas such as: Dumpsters, drain lines, outside drains, statuaries, compactors, overflow lines, grease traps, loading docks, rendering vats, elevator pits, lift stations, trough drains, vault toilets, showers, ceramic tile floors, and many more areas.

Drains: For best results, flush drain with 2-gallons of warm water. Product should be applied at the end of the workday or any other time when the drain will be inactive. Drains with heavy organic build-up should be scrubbed or steamed out to remove heavy debris prior to initial application.

Initial Treatment: Depending on conditions, apply 2-8 ounces of BIO-GEL[®] per drain to establish adequate colonies throughout the drain line. Using a spray nozzle or the included pouring cap, liberally coat the surrounding areas including grout expansion joints and grade plates. Extra care should be given to coat the sides of the drain.

General Maintenance: Apply 2-4 ounces of BIO-GEL[®] per drain each week.

Surface Area Treatment: BIO-GEL[®] is designed to be tank mixed for direct application to dumpsters, trash receptacles, dumb waiters, trash chutes, trough vats, and statuaries. Mix at a rate of 4-8 ounces of BIO-GEL[®] per gallon and apply with a low-pressure hand sprayer, power sprayer or mop bucket. Completely cover the desired area. Do not permit traffic on the treated area until completely dry. Repeat application as necessary.

PRECAUTIONARY STATEMENTS

CAN BE HARMFUL IF SWALLOWED. Wash thoroughly with soap after handling. CAN BE HARMFUL IF INHALED. Avoid breathing spray mist. Remove contaminated clothing and wash before reuse. MAY CAUSE MODERATE EYE IRRITATION.

IF SWALLOWED: Call a physician or Poison Control Center. **IF INHALED:** Immediately remove victim to fresh air. If not breathing, give mouth-to-mouth artificial respiration. Get medical attention. **IF IN EYES:** Flush eyes with plenty of water. Call a physician if irritation persists.

STORAGE AND HANDLING: Store in a cool dry place. Avoid direct contact with the sun. Wash hands after direct contact. Avoid eye contact and inhalation. Keep away from children and domestic animals.
